### **Presented by: Sean Carter**

Sean is a Harvard law graduate who practiced law for a decade at major law firms on both coasts and in-house at a public-traded financial institution. In crafting his presentations, Sean draws heavily on his wealth of experience in the law and on his background as a stand-up comedian. His often "lawpsided" approach to the everyday dilemmas faced by lawyers has made him a favorite at legal conferences from Hawaii to Maine and everywhere in between. Each year, he presents more than 100 programs on such topics as legal ethics, professionalism, stress management, diversity, substance abuse, legal marketing, presentation skills. And while each program is different, they all have one thing in common -- humor and plenty of it.
